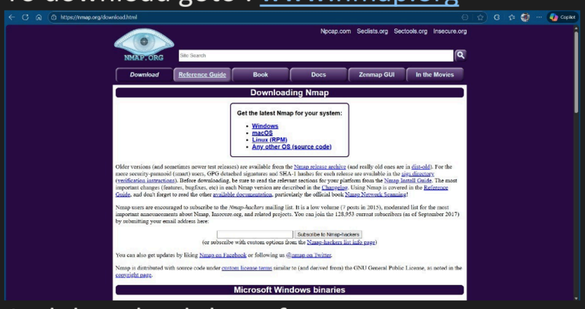
Zenmap

30 November 2025 22:32

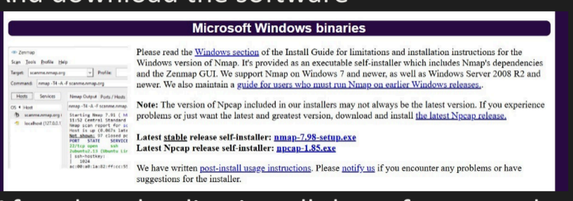
Name	Saurabh Singh
Section	CSAI 4
Roll No.	2401921520233

Zenmap = Nmap with an easy visual interface
Perfect for beginners in ethical hacking, network scanning, and cybersecurity.

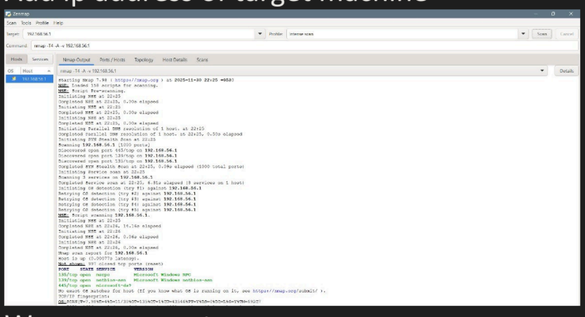
1. It works same as nmap tool to find open ports of the network.
2. To download goto : www.nmap.org



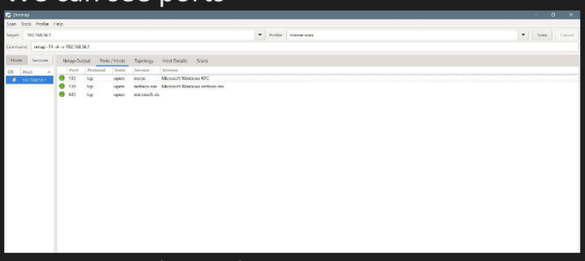
And download the software

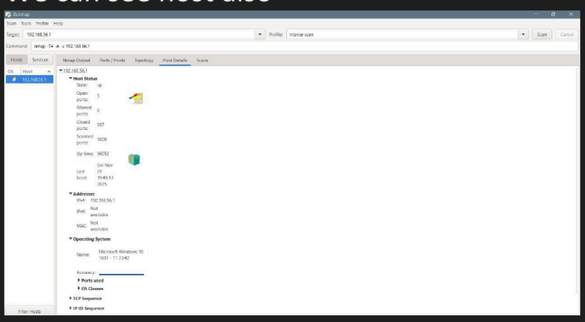


3. After downloading install the software and open start menu.
4. Add ip address of target machine



5. We can see ports





We can see host also
